

QUALITY POLICY

Golding is committed to forming and maintaining successful and enduring relationships with our Clients through providing high quality products and services in the construction, mining and maintenance industries.

To achieve this goal, Golding shall:

- Actively promote our Quality Management System by communicating this policy to all employees, subcontractors and other stakeholders
- Implement our Quality Management System accredited to ISO9001:2000, to ensure continuous improvement throughout all aspects of our operations
- Set measurable targets and continually review and improve our policies, procedures and documents, and
- Use effective management and technical expertise to provide outcomes that exceed our Client's expectations.

Our workforce is committed to the achievement of excellence through training and the adoption of this company policy.

Geoff Caton
Chief Executive Officer
